VOLUME XIV — THE CLEARFIELD PROGRESS, CLEARFIELD, PA. WEDNESDAY EVENING APRIL, 14, 1920 — NUMBER [illegible]

Soldiers Memorial A Sure Go ---Meeting Is Called!

Those interested in having the memory of the heroic deeds of our service men made manifest in some fitting manner, and we believe that every man, woman and child in the entire community is interested, will learn with a great deal of satisfaction that a movement is on foot which seems to have sufficient weight and support to attain the desired end—the erection of a suitable, lasting and fitting memorial.

For many months several partriotically inclined ladies and gentlemen have been quietly working on a plan whereby a suitable location could be secured and the foundation laid for a successful projection of the proposition of showing some material appreciation to our men who left the plow, the mill and the office to beat back the Hun.

At this time the movement is still kept very much in the dark owing to the fact that a premature publication of the entire plan would materially affect the success of the real estate deal involved.

Citizens of Clearfield may rest assured that the whole proposition at this time is in good hands. While we do not know the whole plan we understand that a meeting of the preliminary committee has been called to meet at the High School tomorrow evening at eight o'clock. A body of our representative men and women have been invited to be present at this meeting. Every person who has received the call by letter should make it a point to be there. It is a duty you owe to the service men.

The meeting will be held in the Library of the New High School. If you received a call be sure to be there. The balance of the community is looking to you to perform your part. They will perform theirs later.

STRIKE WORK OF COMMUNIST PARTY SAYS ATTORNEY GENERAL PALMER

SWITCHMEN ON B. R. & P. OUT: MEN HERE EXPECTED TO QUIT

Yesterday morning at 9 o'clock the switchmen employed in the DuBois B. R. & P. yards, decided to join the strikers and left their posts. The men who walked out composed the first trick crew. They went to work in the morning, but after being on the job for several hours decided to join the ranks of the strikers. This came despite assurances given last evening that nothing of the kind was contemplated. This assurance, however, did not come from the men. The crews composing the second trick men were called, but they failed to respond. Likewise the third trick were summoned to work, but they did not heed the caller's remarks on the subject of work. What little switching that was done in the yards yesterday was performed by some of the officials —white collar men as they have been designated during the present strike.

Aside from the handling of freight and material there is considerable switching to be done in the yards because of passenger trains that have DuBois as a terminal.

The men who went out on strike are very reticent in regard to the proposition and have nothing to say as to the whys, wherefors or probable duration of the trouble. In fact they refuse to say anything and the nearest approach to a meeting, so far as known, is a gathering that took place on streets recently, at which time there was a large assemblage of the men involved in the walkout.

It is the belief that the walkout is a sympathy move, in view of the fact that the men have presented no demends. But the situation is rather difficult to angle, as in Chicago, the supposed head of the so-called "rebel" organization, it is claimed that the men are returning to work, while in the east the trouble is spreading rapidly.

The Progress, after a canvass of the local strike situation, finds there are but six switchmen in the local New York Central yard to be affected directly by the strike. While nobody could be found who would admit any danger of a walkout here it is pretty generally rumored that these switchmen are scheduled to walk out tomorrow. The strike appears to be spreading throughout the east, according to pre-arranged plan, the different districts coming out in order.

The railroad men generally are non-committal when asked their opinion on the strike, and claim to know nothing about it.

MEMBERS OF WAGE BOARD SUMMONED BY PRESIDENT

The government's course of action to halt the strike of switchmen was shaped at a meeting of President Wilson and his cabinet today when they heard the report of Attorney General Palmer who reported that he had evidence that the Communist Party was behind the strike which started at Chicago a few days ago.

Immediately after the meeting the Attorney General is believed to have taken steps looking to the arrest of those responsible for the nation wide paralyzation of transportation.

President Wilson wired the members of the newly appointed railroad wage board to come to Washington at once to assume their duties as wage mediators in the controversy. His message said "I sincerely trust that you will find it possible to come to Washington at once prepared to assume the duties of your office. It is believed the senate will confirm your appointment today." The Senate however after an hour's debate took no action on conzirmation and it will go over until tomorrow.

LOWDEN IS G. O. P. PRIMARY FAVORITE IN HIS OWN STATE

CHICAGO, Ill., April 14.—Illinois wants Lowden. Partially complete returns from the primaries held here yesterday show Lowden leading General Wood by 56,741. With 383 precincts out Lowden's lead is expected to increase to 75,000 or more. The Democratic situation is muddled. No names were printed on the ballots and all of the aspirants received some votes. A great many Democrats, however, voted for any person who happened to come first to mind and the results will not show who the Illinois Democrats really prefer.

Two features of the primary were the lead of General Wood over Lowden in Chicago and the writing in of Senator Johnson's name by over 40,000 voters in Chicago In Cook county (Chicago) General Wood has 105,875 votes and Lowden 78,344. In Chicago Johnson, whose name was not on the ticket, polled 40,891 votes.

MARTENS A SUBJECT FOR DEPARTMENT OF JUSTICE IS BELIEF

WASHINGTON, D. C., April 14.—The case of Ludwig Martens, Soviet Representative to the United States, is more for investigation and action by the Department of Justice than by the Senate, Senator Moses, of the sub-committee investigating Martens, reported today. Moses made his report to the Senate Foreign Relations Committee today.

SOME IMPROVEMENT SEEN IN GENERAL STRIKE SITUATION

A gradual improvement was reported in the general strike situation from all sections of the country today. The worst tie-up is in New York where only a few men have returned to their places. The western part of the country reports the strike "subsiding" and that there is a gradual return of striking switchmen and yardmen to their posts.

Attorney General Palmer is reported to have started making arrests of radical leaders who were responsible for the calling of the irregular strike at Chicago.

President Wilson will meet with his cabinet today, for the first time since last August and it is to be expected that the strike situation will be one of the most important subjects to be discussed by the cabinet.

The Interstate Commerce Committee of the Senate will meet today, to hasten confirmation of the wage board named by the President yesterday.

The Attorney General is urging his representatives in many cities to keep a watch on the strike leaders to prevent illegal action on the part of the radical element.

PITTSBURGH, April 14.—Pittsburgh's industries were worse crippled than ever today, and in practically every section of Western Pennsylvania the effects of the strike are being felt more heavily. The P. & L. E. today announced that an effort is being made towards resumption of passenger service on their lines and that with the help of volunteer switchmen they expect to resume normal schedule within twenty-four hours. The Pennsylvania Railroad announces that practically all their striking men have returned and that they expect no further trouble in this district. The B. & O. Railroad is maintaining its schedule by using volunteers and clerks from their offices to take the place of the strikers

NEW YORK CITY, April 14.—Slight improvement was brought about today in the strike zones here by the addition of volunteer workers and the return of a goodly number of strikers. Freight movement, however is still at a standstill, with no hopes of immediate improvement. Conferences between brotherhood officials and strike leaders are continuing.

We Have With Us Today ---A Profiteer Or Two!

Clearfield people are complaining that the price of various articles of foodstuffs show an increase in cost since the calling of the switchmen's strike. If this is the case, and two concrete examples are cited here, then we have with us today—a profiteer or two.

Taking advantage of a possible shortage of food commodities by increasing the selling price is plain, criminal, defenseless profiteering which cannot be tolerated by a people already disadvantaged by a crippled transportation system.

We are informed that one brand of hams which sold on the day the strike was declared for thirty-five cents a pound have been advanced to forty three cents per pound and that the forty three cent variety being sold today came out of the same shipment as the thirty five cent variety of a week ago.

We are also informed that the wholesale price of sugar to Clearfield merchants was increased two cents a pound —sugar which came out of the same shipment as the eighteen cent brand is being sold today for twenty cents by the wholesalers.

The strike may result in a temporary shortage of commodities but the shortage should not add one cent to the price. If one cent is added it is profiteering. Raising the price will not increase the supply or deter hoarders from hoarding. Raising the price simply fills the pockets of the profiteer and empties the pockets of the consumer. This condition will not tend to alleviate the unfortunate conditions growing out of the strike.

The public will be the court of last resort and the public is a stern judge. Dealers in all kinds of commodities will be closely watched by the consumer in this crisis.

BOILER EXPLOSION AT BRICK WORKS INJURES ONE MAN

An exploding boiler completely wrecked the boiler house at the Harbison-Walker Brick Works No. 3 in the lower end of the Fourth ward about ten minutes of 12 o'clock last night. By a fortunate chain of circumstances but one man was injured and he luckily escaped with minor bruises and shock from his close call.

The boiler was one of a battery of twin 160-horse power boilers used in the supplying of power to the brick making machinery of the yard.

As is the custom at the Harbison-Walker works the yard shut down at 11:30 last evening for dinner for the night crew and the men had left their work and retired to their homes and rest rooms and were eating their meal when the accident occurred.

Charles Wiltsey, the night fireman, was engaged in blowing out the flues of the boilers. He was working on No. 1 boiler which was located at the west end of the big yard and was on a ladder in front of the boiler just opposite the door into the boiler room, and this latter fact undoubtedly saved his life. Wiltsey had blown one flue and had just inserted the nozzle of his hose into a second flue when with a deafening roar boiler No. 2, a few feet distant, exploded. The force of the explosion picked the man up like a chip and he was catapulted out through the door by the expansion of the air and thus escaped the rain of debris when it fell back to the floor of the boiler room.

The boiler room was partitioned off from the yard proper by a brick wall along the rear of the boilers. Both boilers were hurled from their foundations and thrown criss cross about the room while the brick wall in the rear was completely demolished, the brick being hurled thruout the yard tearing up the green brick on the floor where the men had been at work a few minutes before and causing general and widespread havoc throughout the plant.

Fireman Wiltsey was cut and bruised and was quickly picked up and taken to the Clearfield hospital, where an examination disclosed that he was but slightly injured and he was able to be about town this morning.

While the actual cause of the explosion is unknown it is thought the water was allowed to get low and when cold water was let on the red hot tubes the smash resulted. The boiler was made by the Phoenix people and had been inspected by a state inspector just about two weeks ago. Fireman Wiltsey and the Foreman of the plant claim they tested the boilers some ten minutes before the blow-up and found the gauge showed plenty of water.

While a pretty bad wreck, the accident occurred at a most fortunate time as had the let go took place while the yard was running a score or more workmen would undoubtedly have been killed.

SOME SERVICE MEN WOULD NOT RECEIVE DOLLAR DAY BONUS

WASHINGTON, April 14.—A cash bonus of $1 for each day's service would be given to approximately 3,000,000 of the 4,800,000 men in the army, navy and marine corps during the war in a plan that has been approved by the bonus sub-committee, it was made known yesterday.

The program which will be submitted to the full committee for approval during this week, calls for an expenditure of slightly less than $1,000,000,000, which is to be raised by a tax of ½ of 1 per cent. on all sales.

It is considered very likely that this plan will be the one which will be submitted to the House in the near future.

Bonuses Are Limited.

With the purpose of limiting the bonus to those who endured heavy financial sacrifices during the war, the sub-committee has eliminated several classes of service men from the groups entitled to benefits, the total number eliminated being estimated at 1,800,000.

Among these classes are:

Those who served less than 60 days because these men already have received the original $60 bonus.

Men who were assigned to industrial plants, such as shipbuilding, and received extra compensation therefor.

All officers.

Men in the regular army before the declaration of war.

Men, who while serving in the army, received compensation from their employers or business interests.

No man would be given the bonus until he applied for it, and this, it is believed, would reduce the total expenditure, as many service men who have wealth are not expected to ask the extra compensation. The application is to contain an affidavit that the soldier is not in any of the above classes.

The plan calls for payment of the bonus in four equal installments and the sales taxes are to be collected in the corresponding periods.

The average service, the sub-committee has been informed, is 10 months, making the average bonus about $300. Men who were promoted to be commissioned officers will be paid only for the time they served as enlisted men. he committee is now waiting for estimates from the treasury department as to exactly how much can be raised by the tax on sales, but preliminary estimates place the amount at about $1,500,000,000. The levying of this tax also would be in the nature of an experiment as there is sentiment in Congress for having it replace some of the other taxes later. For the present, however, it must be in addition to all other taxes.

R. I. Bashford has resigned his position as assistant to Dr. Hennig, vice president and general manager of the Nickel-Alloys Co. Mr. Bashford has accepted a postion as assistant to the general superintendent of the Grasselli Explosive Co., with headquarters at Cleveland.

WILKINS—CURRY

Louis H. Wikins, of Watsontown, Pa, and Mrs. Emma J. Curry, of Cearfield, were married Tuesday afternoon at the West Side Methodist arsonage by Rev. C. C. Snavely. The groom is a valued employe of the Whitmer-Steele Lumber company and has made a host of friends since coming to Clearfield. His bride has been a well known resident of the West Side for a number of years.

The Progress joins their many friends in heartiest congratulations.

WANTS $1500 FOR SLANDER

Suit was entered in the Prothonotary's office yesterday morning, by Chase & Chase, on behalf of Mrs. Catherine Mendalia, who seeks to recover from Mrs. Rosie Pontillo, alias Rosaria Pontillo, the sum of $1500, which Mrs. Mendalia feels is due her for injury to her good name by reason of certain false, malicious and scandalous statements made about her by Mrs. Pontillo.

DANIEL GRIFFIN'S FUNERAL

The remains of the late Daniel Griffin, who died in Galveston, Texas, arrived in Clearfield this morning and were taken to the home of his sister, Mrs. T. T. Beahan, on Ogden avenue. The funeral will be held from St. Francis church tomorrow morning at 9 o'clock. After a reqiem high mass, interment will be made in Calvary cemetery.

LOCATED IN THE LAND OF BRIGHAM YOUNG

The many local friends of James D. Schaeffer, formerly with the Pennsylvania Railroad at this place, will be pleased to know that now that the railroads of the country are back in the hands of their private owners Jim has been re-established as Traveling Passenger Agent of the Chicago, Milwaukee and St. Paul Railway with headquarters in the Clift building at Salt Lake City, Utah.

If the Fates make it possible for us to get to that San Francisco Democratic convention we are going to Salt Lake on Jim's road and stop off long enough to have him introdue us to the seven or eight extra wives he has no doubt accumulated since locating in Mormon land.

STOCKS ADVANCE

NEW YORK CITY, April 14.—There were substantial increases in prices on the opening of the market today. Mexican Petroleum opened at 206½ up 1½, Baldwin at 140⅞ up 1⅛, United States Steel at 105½ up ⅛, Republic Steel at 112½ up 1, Bethlehem B. at 97¾ up ¼, Crucible at 259 up 2. Midvale sold at 48¼.

FORMER WELL KNOWN RESIDENT MARRIED

Mrs. Emma J. Bouton, a former well known resident of Clearfield, who spent the past winter at Chautauqua, New York, was married there recently to Dr. H. A. Ellis, of Franklin, Pa.

A. B. Litz, the DuBois printer, was a county seat visitor today.

NEW Y. M. C. A. PRESIDENT

R. I. Fulton has been elected President of the local Y. M. C. A., to succeed ex-Judge Allison O. Smith, who resigned that position after several years most satisfactory service on account of ill health.

Mr. Fulton is peculiarly well fitted for the position to which he has been chosen. An indefatigable worker, an organizer and executive of pronounced ability he is eminently the right man for the place. At the forefront of every movement for the moral betterment and uplift of the community, as President of the Y. M. C. A., Mr. Fulton will have special and added opportunity to employ his constructive talents for the moral welfare of the town. His was a particularly wise selection on the part of the Board of Directors.

FOREST FIRE LOSS IN PENNSYLVANIA ENTIRELY TOO BIG

HARRISBURG, Pa., April 14.—The 36 forest fires that occurred in Clearfield county last year, were due to the following causes:

Railroads, 6; brush burning, 3; incendiary, 1; campers, 3; hunters and fishermen, 6; lumbering, 1; lightning, 0 and miscellaneous, 19. During the last five years, forest fires of more than 1,000 acres in extent, burned over 43,738 acres in that county. The figures were compiled by the Pennsylvania Department of Forestry.

Gifford Pinchot, the state's new chief forester, today issued the following statement on the seriousness of the forest fire situation in Pennsylvania:

"Forest fires are important almost beyond calculation. They cost us more than $10 each every year for every man, woman and child in Pennsylvania—not in the trees that are burned down, but in the lumber, fence posts, poles, ties and other forest products they prevent from being produced.

"The great damage from forest fires is what they keep our woodlands from producing for us. Help us to hold them down this year."

FORMER CLEARFIELDER MEETS DEATH IN TEXAS

Daniel A. Griffin, formerly of Clearfield, was killed at Galveston, Texas, on Friday, April 9th, by coming in contact with a "live wire" while employed as a lineman. The following reference to the sad happening was taken from the Galveston News of that date:

Daniel A. Griffin, a lineman for the Brush Electric Company, was killed at 2:50 o'clock yesterday afternoon, on Thirty-fifth street, between avenues P½ and Q, when he came in contact with a live wire, while working on a telegraph pole. His life belt held him in position until his companions took him down. He was rushed to the John Sealy Hospital, but was beyond medical aid when the hospital was reached.

The deceased was born at Houtzdale December 11, 1889, and resided in Clearfield for several years. He was an industrious, hard-working man and possessed a large circle of friends in this section.

He is survived by his father, Daniel Griffin, of Clearfield, four sisters, Mrs. T. T. Beahan, of Clearfield; Anna and Nellie, of Rochester, N. Y.; Kathryn, of the Pennsylvania Hospital, Philadelphia, and three brothers, John, of Viaduct, Pa.; Thomas and Dennis, of Rochester, N. Y.

The remains will be brought to the home of Mrs. T. T. Beahan, and the funeral will be held from St. Francis Catholic church, but on account of the present railroad situation, the date of the funeral will be announced later.

Mrs. Charles Halford is spending a few days with her son in Indiana.

KILLS ANOTHER WHO BOASTED HE COULD WIN LOVE OF WIFE

HANFORD, Calif., April 14—When William J. Forbes [illegible] late this month for the murder of Clarence Eaton a [illegible] a man driven to desperation [illegible] threats of another [illegible] wife's love.

Forbes says he killed Eaton because the latter refused to stop boasting of his ability and intention of alienating Mrs. Forbes' affection.

After shooting Eaton dead, Forbes rode 1,100 miles in an automobile in four days, traveling day and night without sleep, to give himself up.

Forbes once was postmaster at Death, Nev., and later became deputy county assessor there.

Eaton returned from the war and was welcomed at the Forbes home because of his friendship with members of Mrs. Forbes' family. Eaton, Forbes asserted, reciprocated by openly attempting to win Mrs. Forbes' love.

Becoming interested in some mining property near Arrowhead, about eighty miles from Tonopah, Forbes saw an opportunity to get away from Eaton, he said, and moved with his family Mrs. Forbes and their two boys —to the mine.

Eaton then began writing letters to Mrs. Forbes, her husband deposed, begging her to join him in California.

"The condition became unbearable," Forbes said, "and I drove to California in my car to see Eaton and come to a definite understanding with him.

"I met him in the street and went with him to his room to talk the matter over. The result was that I agreed to take Eaton to my home and leave it to Mrs. Forbes to choose between us."

The two left town that evening and started for Nevada. They had traveled about eighty miles when the lights on the car went out. Forbes stepped out to make repairs, he said, when Eaton suddenly exclaimed: "I'll not go any farther. I'm going to leave you at the next town and go back. I can take your wife at any time, and the two kids, too"

Forbes whipped out a revolver and fired one shot. It struck Eaton in the head, killing him instantly.

Realizing that he was in a strange country among strangers, and that he had letters in his pockets, written by Eaton, which would be taken from him, Forbes decided to go to Arrowhead and get his family—they lived alone in the hills—and then surrender.

This he did, later wiring California authorities he was on his way. A few days later he appeared. Meanwhile he had found a new home for his family.

Forbes talks frankly of the killing. "There was no other way out," he says.

H. P. Nicholson formerly general superintendent of the Nickel-Alloys Company has accepted a position with the Grasselli Powder Company at Cleveland, Ohio.

Will somebody please derail the switchmen's strike.

Our readers must pardon the style of The Progress these days when newsprint is hard to get and harder to pay for than to get.

That good old reliable "warmer" which fishermen have depended upon since time immemorial is no longer available to those who have been subject to chills on their spring fishing trips. There is some consolation to the timid sportsman in the knowledge that the weather is too cold for snakes.

It appears that beginning today we are to have once more a government that functions, at least for the first time in six months it is to have an acting head. We rejoice that the health of the president again permits him to take his place at the head of the cabinet table and that with him in his place there will be no more suspicion that another, not our president, is directing the destiny of the nation.

Illinois, as was to be expected, went for Governor Lowden. Illinois is his home state. A little spice was injected into the poitical situation by the wonderful testimonial to Hiram Johnson when over 40,000 took the trouble to write his name on the ballot. Wood did fine in Cook County in which Chicago is located. Offsetting developments of the last two or three weeks Hoover did not have a look in. The Illinois Democrats had no candidates to vote for.

We learn with regret that railroad workers in this community are giving ear to the appeals of the so-called "reps" paied that they join the striking hosts throughout the nation. While the strike is gaining in momentum throughout the east it appears that the movement has lost its momentum in the west. There are many reasons why railroad men should not align themselves with the strike movement as at present set. The strike is illegal as far as union practices are concerned. It does not have the approval of the American Federation of Labor or of the big brotherhoods. It is led, according to Attorney General Palmer, by members of the Communists Party of Chicago, whose sole object is to create a reign of terror throughout the nation. It is contrary to the letter and spirit of the railroad law which, although slow in meeting the demands of the striking men, will eventually function. There are so few switchmen in this locality that their addition to the ranks of strikers will not help to attain any benefits but will bring a great deal of disadvantage to this community thru the partial crippling of industry here. The strike, as a whole, is not approved by union labor or by public sentiment. In fact the public have a very vital interest in it. The losses to the roads now thru reduction of revenues is running from three to four millions of dollars a day. It is to be hoped that good judgment will prevail and that the disturbance will not come to our very doors.

THAT'S WHERE THE TROUBLE COMES IN

The article in The Progress last evening charging Clearfield county's marriageabe young ladies with failure to embrace the leap year privilege ,to say nothing of the man necessary for the opportunity, brought several replies of one kind and another over the telephone this morning. A number of women seemed to think the entire "weaker sex" needed defense and they flew to the rescue with tongues wagging at both ends.

We have been married entirely too long to even think of replying to a woman when she gets het up on any subject and commences on us with that "deadly weapon" most generously supplied the female of the species, so we listened in silence to the end of each discourse regardless of "Oh, Lord! how long." When each defender of the fair sex had "run down," so to speak, we replied in our most abject tone that no offense was intended and we agreed with the speaker in all that she had to say.

We didn't particularly mind the first four or five but after that they got on our nerves somewhat and we were forced to make reply in the last case. After listening to a tirade against "poor man" of at least five minutes duration, without period or stop of any kind, we finally got our chance, when the lady closed with "A married man is flirting with me and I'm going to make a date with him some of these days and tell him what I think of him." When we sweetly advised her not to do it, that it was just that kind of thing which filled the divorce courts, she went down for the count and before she came up for air we had hung up the receiver.

Keeping Promises.

It is high praise when one can say of a person that he is a man of his word. One knows what to expect of such a man. He is a valuable citizen, a good neighbor, a true friend, one with whom it is satisfying to deal. He does not make promises without knowing he will keep them. Having made one, he will, if need be, fulfill it at an inconvenience or a personal loss.

We all know those who, on the contrary, promise anything readily. "Oh, yes, I will be there," they say, and fail to appear at the appointed time or place. "Yes, I will give so much," they declare, or "I will do such a piece of work," but fail to give the matter another thought.

Such people have convenient forgetters. When asked to fulfill their promises, they have forgotten them entirely, or "other matters have intervened," or "now it is too late." A few experiences with this kind of promiser make one value above rubies and diamonds the man who keeps his word.

Why Horse Chestnut?

It is said that the name horse chestnut was derived from the fact that when the leaves of the tree fall there is a scar left on the twig in the shape of a horseshoe, that bears marks resembling the nails of a shoe.

The Cold That Hangs On

This is No. 5 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's VapoRub may be of value in this condition.

A cold is simply an inflammation of some part of the air passages—throat, larynx or bronchial tubes—just like a sore is an inflammation of the skin. A long continued cold means constant inflammation and this constant inflammation frequently weakens the air passages so that they become an easy point of attack for invading germs of more serious diseases. A "cold that hangs on," therefore, is simply nature's "red flag" indicating that there is "trouble below," and this warning should never be neglected.

Nightly applications of Vick's VapoRub will aid nature to clear up that inflammation. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to The Vick Chemical Company, 235 Broad Street, Greensboro, N. C.

Her Grandma Used Sage Tea To Darken Her Hair.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Saving By A Plan

Haphazard saving does not accomplish anything. The **man who saves** when he thinks of it, or when he has some **extra money** in his pocket will save very little.

The only way to save it to do it by a plan. Determine what proportion of your income you can save. Then stick to the plan. Every day put in the bank the amount you have decided to save. In a short time it will be the natural thing to set aside first your savings account's share each payday. When it becomes a habit you are on the way to success.

Start now to develop the Saving Habit. Let this bank help you.

To whom it may concern:

Notice is hereby given that the FOURTH TRIENNIAL ACCOUNT of William I. Swoope, Guardian of Thomas C. Burton, lunatic, was filed in this office on December 23rd, 1919, and will be confirmed on the first Monday of May, unless exceptions are filed to same.

Certified from the record this 30th day of March, 1920.

GEORGE W. RALSTON,
M31-A7-14-ch Prothonotary.

DIVORCE NOTICE

In the Court of Common Pleas of Clearfield county, Pennsylvania.

Harry Fronk : No. 5
vs. : May Term,
May Fronk : 1920. In Divorce

To Mrs. May Fronk:

You are hereby notified that the undersigned Commissioner, appointed by the Court to take testimony in the above stated case and report the same to the Court with form of decree, will sit for the purpose of the appointment at his office in the Clearfield Trust Company building, in the borough of Clearfield, Pa., on Friday, the 7th day of May, 1920, at ten o'clock a. m., when and where you may attend, if you think proper.

JOHN M. UREY,
Commissioner.

Clearfield, Pa., April 13, 1920.

AUTOMOBILE BASKET BALL LEAGUE CLOSED WITH THE FORD CHAMPIONS

The Y. M. C. A. Automobile basket ball league has closed its season, with the Ford, as usual, coming to the top on high. Seventy-five Intermediate boys played thirty-nine games in the league, and some of them were very exciting. Director Graffius referred all the games.

They will now play indoor base ball.

Standing of the teams:

	Won	Lost	Pct.
Ford	10	3	769
Buick	8	5	615
Hudson	7	6	538
Maxwell	6	6	500
Franklin	5	6	334
Nash	3	6	334
Chevrolet	2	7	223

Blades that give a Real shave

Men form a life-long friendship for these oil-tempered, smooth-shaving, hollow-ground blades. They know they can always be depended upon for a cool, clean, comfortable shave without "pulling" or "heating" the skin. They know they mean the luxury of a fresh edge at a moment's notice because these blades are *detachable*; that they make for economy because they are *double-edged*; that they insure safety because they are *guarded*.

Try one of these wonderful blades today and learn the comfort that eight million men are enjoying in

DURHAM-DUPLEX
A Real Razor—made Safe

The razor whose balance and old time shape make it seem part of your hand—the razor that lies on your cheek at the one-and-only right shaving angle—and that won't cut your face. The razor, furthermore, that has the longest, strongest, keenest, best-tempered blades on earth. The standard set consisting of the razor, safety guard, and 3 two-edged blades, is now packed in a trim, durable case of American ivory. Just the thing for traveling bag or kit. One Dollar Complete.

Additional blades 50 cents for a package of 5

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The Rescue fire boys are asking borough council to buy some new gum coats, of which they are greatly in need At every fire the men ruin more or less of their clothing simply from the fact of a lack of suitable covering to protect them from water, smoke and dirt The Rescuers ask no pay for their work when called upon to perform it, and at the present price one has to pay for clothing now-a-days, they are asking only a small compensation. Buy the firemen new gum coats, so say we all.

The Progress man made a visit to the site upon which the new blouse factory is going to be built. The foundations are all excavated and a small portion of the concrete bottom for the walls put down. Several car loads of white brick have been unloaded on the ground and piled up in close proximity and can be rapidly handled when the time arrives for their use. A deep ditch has also been excavated to the creek which will answer for both drainage and water The building will be situated close to the junction of the P. R. R. and B., R & P. tracks so that the raw materia and the finished product can be handled at little cost and speed.

Last Wednesday evening, April 7th, Illini tribe No. 362, Improved Order Red Men, held an important and interesting session. Among other items of business transacted was the raising of chiefs for the ensuing term, the work being done by H. P. Fulkner. D S., of Philipsburg, assisted by local members of the tribe. Sachem, Harvey M. Smith; Sr. Sagamore, C. Bert Peters; Jr. Sagamore, William Milliron; prophet, Wm. Holden; K of C., J. A. Dale; C of W., Peter O'Laughlin; K. of W., Joseph P. Fullerton; 1st Warrior, Bruce Robison; 2nd Warrior, Ed. Balute; 3d Warrior, Ed. Tenor; 4th Warrior, J. H. Heitzenrather; 1st brave, F. D. Barger; 2nd brave, Dorsey Black; Guard of the Forest, John Hudson; Guard of the Wigwam, Charles Brown. After the new officers had taken their respective seats, addresses were made by some of the warriors of the tribe, after which a general smoker was indulged in. Illini Tribe is fast growing into a large membership and in wealth stands second to no other secret organization in Curwensville Their literature is open and free to any and all who desire to acquaint themselves with the order.

Born to Mr. and Mrs Charles Middleton at their home Monday, a daughter.

Curwensville physicians at a recent conference agreed to raise and put into effect a new schedule of visiting rates On and after April 15th their charges will be as follows: Office calls, $1.00; residential visits, daytime, $2.00, night $2.50 Out of town calls the charges will be made in accordance with the number of miles traveled.

The members of the P. H. C held a dime social at the residence of Mrs Alice Elder on South Side, last evening.

Clyde Bennett was quite seriously injured yesterday forenoon while working on a saw mill near town While no bones were broken his body was pretty badly bruised.

Wm Twigg, Sr, is having a new shingle roof put on his Bloomington avenue home.

Headache, Earache, Toothache, Neuralgia, Lumbago, Neuritis, and for Pain in general. Proper and safe directions are in each unbroken "Bayer" package.

Handy tin boxes of 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages Aspirin is the trade mark of Bayer Manufacture Monoaceticacidester of Salicylicacid.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink taken day after day leaves in the alimentary canal indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomainelike poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before breakfast each morning drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash out of the bowels the previous day's poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practising internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

TROUT FISHING OPENS TOMORROW

The 1920 trout-fishing seasbn opens tomorrow. Despite the exceptionally cold April weather, a large number of Clearfield fishermen have their plans made for whipping their favorite stream on opening day.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

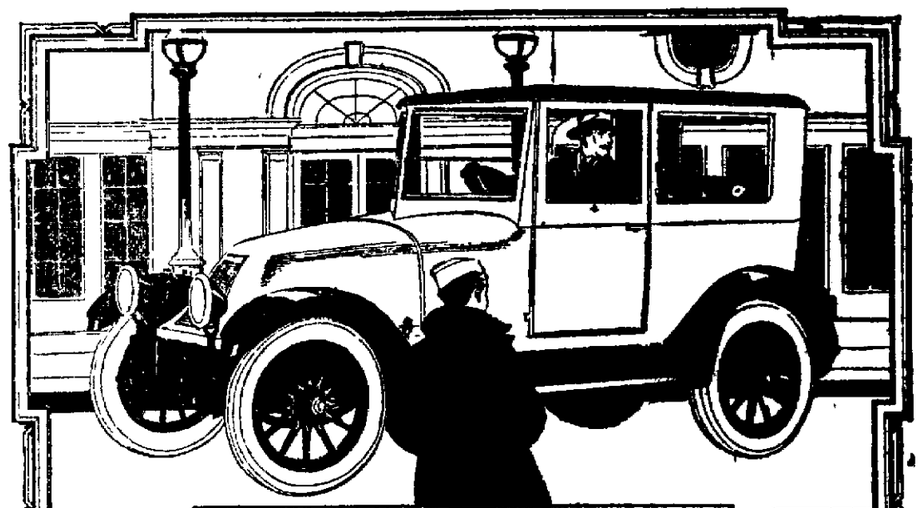
Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size $2.50.

MUSTEROLE



THE FRANKLIN SEDAN

NO fine car is so well fitted for unrestricted year'round use as a Franklin.

Direct air-cooled, and having no water to boil or freeze, it is free from all temperature troubles, and can be used with as little restriction, annoyance and extra care in winter as in summer.

Light and flexible, it rides comfortably and handles easily and safely under all conditions.

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

FOREST TELEPHONE SERVICE BETTERED

HARRISBURG, Pa., April 14—Four miles of telephone line were completed last week on the Karthaus State Forest, according to a report received from W H. Horning, the state forester at Keewaydin, Clearfield county, by the Pennsylvania Department of Forestry. Assisted by Ranger M A. Barr and two other men, Forester Horning is pushing the construction of the telephone line to early completion in order to provide improved protection against forest fires this spring.

FARM BUREAU BULLETIN

The condition of the corn this year seems to be equally as poor in germination as it was two years ago. This condition was brought about by the unusually high moisture content of the corn last fall, followed by the freezing weather before the corn was properly dried out.

A germination test of each of 317 exhibits from 39 different counties at the state show held in Harrisburg last January, showed the folllowing results.

Percent Germination	
100	
91—96	
71—90	
Below —70	
No signs of life	
Number of exhibits	
115	or about 1-3
62	or about 1-5
94	or about 3-10
46	
4	

It is safe to assume that these exhibits represented corn above the average of the state and yet if such were the results what may be expected from the crib-sun corn so much of which is still used in Clearfield county for seed, untested.

If you recall the absolute failure of the men who did not test their seed corn in the Spring of 1918, you will certainly want to test this year. Seed corn that has been tested and found good is going to be scarce and hard to get. If you have not already tested your seed or located some that is sure to grow, attesd to it at once as the delay may mean the loss of half a crop of corn at a time when the feed will be the chief factor in your livestock program.

If you have some seed for sale, kindly let the County Farm Agent know of it or if you desire to obtain some, drop a line and he will be glad to assist you in obtaining good seed from a reliable source.

Sincerely yours,
W. C. STERRETT,
County Farm Agent

CLEARFIELD COUNTY POMONA

Pomona Grange No. 33 met in the I. O. O. F. commodious hall April 1 and held three lively sessions. Owing to the bad condition of the roads, many patrons could not attend but still we had a large attendance.

Reports from 20 of the 30 subordinate granges in the county nearly all showed new activity and are adding new members to their rosters.

A very able program consisting of topics, recitations and music arranged by our Worthy Lecturer F. Berton Lee, was rendered during the sessions, whtich were lively instructive and entertaining.

Dinner and supper was served in the hall by the good sisters of the order which was enjoyed by all present.

The next Pomona will meet with Frenchville Grange August 26, 1920.

The following resolutions were passed unanimously.

1. We hereby tender a vote of thanks to the Independent Order of Odd Fellows, for their kindness in granting Pomona Grange the use of their large and commodious hall in which to hold our various sessions.

2. Resolved that we highly appreciate the stand taken by District Attorney John C. Arnold in regard to the prohibiting of all gambling devices from the county and from the various fairs to be held this coming fall in this county and for his determination to have all persons violating said gambling laws, be prosecuted in accordance therewith.

C. A. WOODS
C. H. GOODLANDER
Committee

By means of a portable telephone set, communication is maintained with the Sinnemahoning Forest while the new line is being strung. Some of the poles were put in position last fall and the remainder are being set and the wire is strung as the crew proceeds.

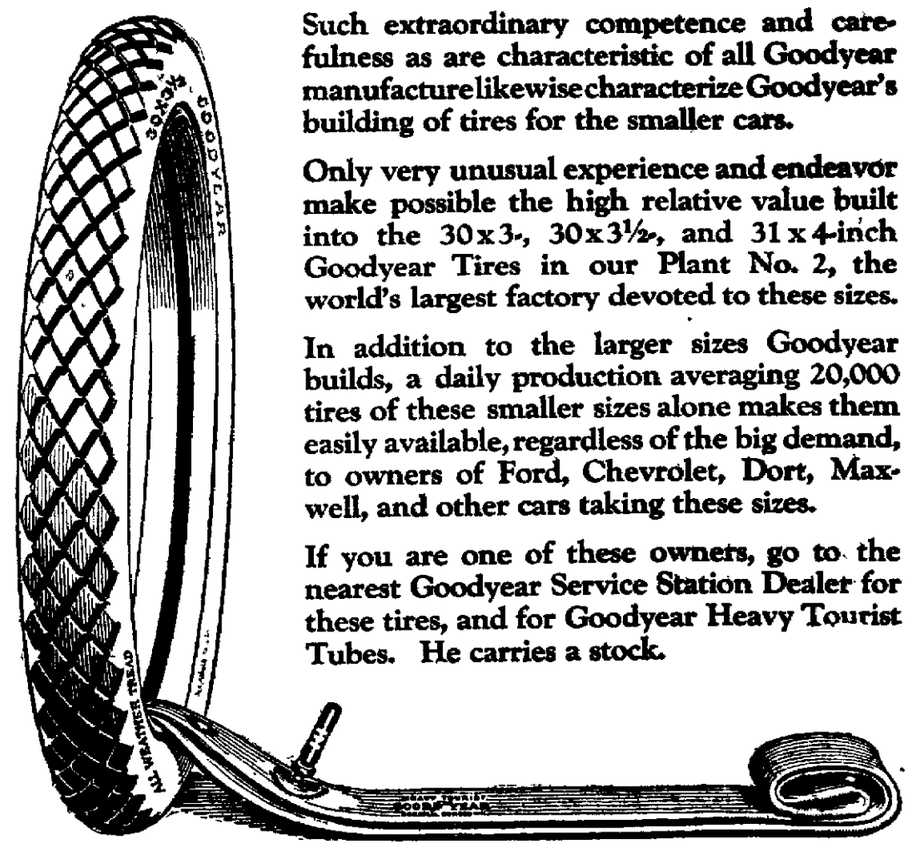
Merit That Makes Mileage —In Tires for the Smaller Cars



Such extraordinary competence and carefulness as are characteristic of all Goodyear manufacture likewise characterize Goodyear's building of tires for the smaller cars.

Only very unusual experience and endeavor make possible the high relative value built into the 30x3-, 30x3½-, and 31x4-inch Goodyear Tires in our Plant No. 2, the world's largest factory devoted to these sizes.

In addition to the larger sizes Goodyear builds, a daily production averaging 20,000 tires of these smaller sizes alone makes them easily available, regardless of the big demand, to owners of Ford, Chevrolet, Dort, Maxwell, and other cars taking these sizes.

If you are one of these owners, go to the nearest Goodyear Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He carries a stock.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... $23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... $21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size *in waterproof bag*..... $4.50

GOODYEAR

John McKee, he comes to see My sister Nell quite frequently. And then these two begin to brew Some Golden Sun—immediately.

AMUSEMENTS

THE CHIEF CAUSE OF DIVORCE

New Photoplay Shows it to be a Neglected, Longing Spouse

A noted cynic once said of marriage: "The first forty years are the hardest!"

That the married life of millions of people is unhappy is proved by the divorce records.

What are the reasons?

One of the reasons is bared in "Blind Husbands," Universal's sensational photodrama of the Tyrolean Alps.

The film story, which is to be shown on Friday and Saturday at the Driggs theatre, was produced under the direction of Erie Stroheim, who also plays the leading role.

In brief, the story shows how a socalled dutiful husband ground the embers of his wife's love in the dust of indfferencei and made her heart vulnerable to the advances of a love-buzzard.

The story of "Blind Husbands" was written by Stroheim from an incident that occurred under his observation while he was on a vacation tour in the Alps.

Supporting him in the cast are several screen celebrities, among whom are Francelia Billington, Sam DeGrasse, H. Gibson-Gowland, Valerie Germonprez and Jack Perrin.

GREAT MUSICAL COMEDY

Kilroy & Britton will offer "OH DADDY," the latest of their many musical successes, at the Driggs Theatre, Thursday, April 15, featuring Norman Hanley and Ella Warner Davis. "OH DADDY" is said to be a novel, joyful, tuneful and a wholly different musical play. One of the chief charms of "OH DADDY" is the ever present element of continual surprise that pervades this adroit combine of whimsical foolery, haunting melody and feminine loveliness. There are a score of song hits and tinkling, tatalizing dance numbers that quicken the pulse and set young feet to tripping.

GIRLS' "GYM" EXHIBITION

On Thursday evening, April 15, at 7:30, the Junior, Intermediate and Senior Girls' gymnasium classes will give a free entertainment and gymnasium exhibition, for their mothers and fathers to see what they have learned during the winter course of Y. M. C. A. gymnasium classes.

It will consist of physical drills, marching, racing, Indian club swinging and dumbbell drills.

All of the two hundred girls who attended the classes either this year or last, are invited to take part in the exercises.

All school teachers should see these physical drills and games.

JORDAN'S

CUTTING FINE TRACT OF TIMBER

A. C. Lasberry the Bigler lumberman, was a Clearfield visitor yesterday. The firm of A. C. Lansberry & Son are now engaged in operating the tract of virgin timber at Lumber City which they recently purchased from Watts Brothers. In conversation with Mr. Lansberry he informed us that this tract is one of the very best he ever cut in all of his 56 years in the lumber woods of Clearfield county. There had never been an axe in this tract previous to ths operation and as an evidence of the size of the timber one white oak tree cut by Joseph Lines of Lumber City, one day last week, measured four feet across the stump, the first 16 foot log being 36 inches at the top. The tree scaled 2330 feet. Several pine trees cut on this tract scaled over 3000 feet each. The big oak mentioned was cut near the Bo-Narr picnic grounds.

First Examine Good Qualities.

We are firm believers in the maxim that for all right judgment for any man or thing it is useful, nay essential, to see his good qualities before pronouncing judgment on his bad.—Carlyle.

Gossip for Tonight's Tea Table

James Redding of Altoona, was looking after business interests in Clearfield yesterday.

'Squire James Ruffner, of Madera, transacted legal business at the court house yesterday.

Dr. Woolridge and wife have returned from spending a couple of weeks in Atlantic City and Philadelphia.

Mrs. L. M. Garrett, of Philadelphia, is the guest of her brother, T. Lansing Snyder on Front street.

Miss Mabel Shoff returned to her home in Johnstown, after visiting with friends here.

Mrs. John Fulford, of New York, is visiting her mother, Mrs. Rueben McPherson.

Rev. C. W. Baker attended the banquet of Pennsylvania College at Altoona last evening.

Miss Elizabeth McBlain has returned to her work in Johnstown, after spending the week end with her parents, Mr. and Mrs. James McBlain on Fourth street.

Miss Rebecca Daugherty is spending a few days with her sister in DuBois.

Mrs. George Jacobs and son Horace are visiting with relatives in Lock Haven.

Miss Nan Weaver, who has been visiting Mrs. Hobart White, returned to her home in New Washington.

Mr. and Mrs. P. B. Andes left this morning for Danville, where they will make their future home.

Mrs. Nolan Bloom, of Curwensville, was shopping in town yesterday.

Miss Catherine Tozer has returned to her studies at Indiana Normal, after spending her Easter vacation here.

Clarence Aldrich, of Pittsburgh, is spending a few days with friends here.

Does It Catch You in the Back?

It may be that you are mysteriously attacked by pain in back (lumbago), or limbs, "neuralgic" pains—shooting anywhere, or swollen and painful feet. Pain and backache of any kind are often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys. Perhaps you have become nervous, despondent, sick, feverish, irritable, have headache or spots appearing before the eyes, bags under the lids and lack ambition to do things. The latest and most effective means of overcoming such trouble is, take a single Anuric (anti-uric-acid) Tablet before each meal.

Obtain Anuric at any drug store, or send ten cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package. Listen to this:

Montrose, Pa.—"When I commenced taking Dr. Pierce's Anuric I could hardly go up and down stairs. I had to put one foot up and then drag the other up, I had such a lame hip, but now I can run up and down as well as I ever did in my life. I also suffered with indigestion for twenty-five or thirty years—was almost afraid to eat, but now I can eat almost anything and have gained seven pounds. I took Dr. Pierce's Golden Medical Discovery, 'Anuric Tablets,' and one vial of 'Pleasant Pellets.'"—MRS. G. L. SHELP, Route 2, Box 6

Flegal's Store News Men's Serge Suits

Soldiers Memorial A Sure Go ---Meeting Is Called!

Those interested in having the memory of the heroic deeds of our service men made manifest in some fitting manner, and we believe that every man, woman and child in the entire community is interested, will learn with a great deal of satisfaction that a movement is on foot which seems to have sufficient weight and support to attain the desired end—the erection of a suitable, lasting and fitting memorial.

For many months several partriotically inclined ladies and gentlemen have been quietly working on a plan whereby a suitable location could be secured and the foundation laid for a successful projection of the proposition of showing some material appreciation to our men who left the plow, the mill and the office to beat back the Hun.

At this time the movement is still kept very much in the dark owing to the fact that a premature publication of the entire plan would materially affect the success of the real estate deal involved.

Citizens of Clearfield may rest assured that the whole proposition at this time is in good hands. While we do not know the whole plan we understand that a meeting of the preliminary committee has been called to meet at the High School tomorrow evening at eight o'clock. A body of our representative men and women have been invited to be present at this meeting. Every person who has received the call by letter should make it a point to be there. It is a duty you owe to the service men.

The meeting will be held in the Library of the New High School. If you received a call be sure to be there. The balance of the community is looking to you to perform your part. They will perform theirs later.

STRIKE WORK OF COMMUNIST PARTY SAYS ATTORNEY GENERAL PALMER

SWITCHMEN ON B. R. & P. OUT: MEN HERE EXPECTED TO QUIT

Yesterday morning at 9 o'clock the switchmen employed in the DuBois B. R. & P. yards, decided to join the strikers and left their posts. The men who walked out composed the first trick crew. They went to work in the morning, but after being on the job for several hours decided to join the ranks of the strikers. This came despite assurances given last evening that nothing of the kind was contemplated. This assurance, however, did not come from the men. The crews composing the second trick men were called, but they failed to respond. Likewise the third trick were summoned to work, but they did not heed the caller's remarks on the subject of work. What little switching that was done in the yards yesterday was performed by some of the officials —white collar men as they have been designated during the present strike.

Aside from the handling of freight and material there is considerable switching to be done in the yards because of passenger trains that have DuBois as a terminal.

The men who went out on strike are very reticent in regard to the proposition and have nothing to say as to the whys, wherefors or probable duration of the trouble. In fact they refuse to say anything and the nearest approach to a meeting, so far as known, is a gathering that took place on streets recently, at which time there was a large assemblage of the men involved in the walkout.

It is the belief that the walkout is a sympathy move, in view of the fact that the men have presented no demends. But the situation is rather difficult to angle, as in Chicago, the supposed head of the so-called "rebel" organization, it is claimed that the men are returning to work, while in the east the trouble is spreading rapidly.

The Progress, after a canvass of the local strike situation, finds there are but six switchmen in the local New York Central yard to be affected directly by the strike. While nobody could be found who would admit any danger of a walkout here it is pretty generally rumored that these switchmen are scheduled to walk out tomorrow. The strike appears to be spreading throughout the east, according to pre-arranged plan, the different districts coming out in order.

The railroad men generally are non-committal when asked their opinion on the strike, and claim to know nothing about it.

MEMBERS OF WAGE BOARD SUMMONED BY PRESIDENT

The government's course of action to halt the strike of switchmen was shaped at a meeting of President Wilson and his cabinet today when they heard the report of Attorney General Palmer who reported that he had evidence that the Communist Party was behind the strike which started at Chicago a few days ago.

Immediately after the meeting the Attorney General is believed to have taken steps looking to the arrest of those responsible for the nation wide paralyzation of transportation.

President Wilson wired the members of the newly appointed railroad wage board to come to Washington at once to assume their duties as wage mediators in the controversy. His message said "I sincerely trust that you will find it possible to come to Washington at once prepared to assume the duties of your office. It is believed the senate will confirm your appointment today." The Senate however after an hour's debate took no action on conzirmation and it will go over until tomorrow.

LOWDEN IS G. O. P. PRIMARY FAVORITE IN HIS OWN STATE

CHICAGO, Ill., April 14.—Illinois wants Lowden. Partially complete returns from the primaries held here yesterday show Lowden leading General Wood by 56,741. With 383 precincts out Lowden's lead is expected to increase to 75,000 or more. The Democratic situation is muddled. No names were printed on the ballots and all of the aspirants received some votes. A great many Democrats, however, voted for any person who happened to come first to mind and the results will not show who the Illinois Democrats really prefer.

Two features of the primary were the lead of General Wood over Lowden in Chicago and the writing in of Senator Johnson's name by over 40,000 voters in Chicago In Cook county (Chicago) General Wood has 105,875 votes and Lowden 78,344. In Chicago Johnson, whose name was not on the ticket, polled 40,891 votes.

MARTENS A SUBJECT FOR DEPARTMENT OF JUSTICE IS BELIEF

WASHINGTON, D. C., April 14.—The case of Ludwig Martens, Soviet Representative to the United States, is more for investigation and action by the Department of Justice than by the Senate, Senator Moses, of the sub-committee investigating Martens, reported today. Moses made his report to the Senate Foreign Relations Committee today.

SOME IMPROVEMENT SEEN IN GENERAL STRIKE SITUATION

A gradual improvement was reported in the general strike situation from all sections of the country today. The worst tie-up is in New York where only a few men have returned to their places. The western part of the country reports the strike "subsiding" and that there is a gradual return of striking switchmen and yardmen to their posts.

Attorney General Palmer is reported to have started making arrests of radical leaders who were responsible for the calling of the irregular strike at Chicago.

President Wilson will meet with his cabinet today, for the first time since last August and it is to be expected that the strike situation will be one of the most important subjects to be discussed by the cabinet.

The Interstate Commerce Committee of the Senate will meet today, to hasten confirmation of the wage board named by the President yesterday.

The Attorney General is urging his representatives in many cities to keep a watch on the strike leaders to prevent illegal action on the part of the radical element.

PITTSBURGH, April 14.—Pittsburgh's industries were worse crippled than ever today, and in practically every section of Western Pennsylvania the effects of the strike are being felt more heavily. The P. & L. E. today announced that an effort is being made towards resumption of passenger service on their lines and that with the help of volunteer switchmen they expect to resume normal schedule within twenty-four hours. The Pennsylvania Railroad announces that practically all their striking men have returned and that they expect no further trouble in this district. The B. & O. Railroad is maintaining its schedule by using volunteers and clerks from their offices to take the place of the strikers

NEW YORK CITY, April 14.—Slight improvement was brought about today in the strike zones here by the addition of volunteer workers and the return of a goodly number of strikers. Freight movement, however is still at a standstill, with no hopes of immediate improvement. Conferences between brotherhood officials and strike leaders are continuing.

We Have With Us Today ---A Profiteer Or Two!

Clearfield people are complaining that the price of various articles of foodstuffs show an increase in cost since the calling of the switchmen's strike. If this is the case, and two concrete examples are cited here, then we have with us today—a profiteer or two.

Taking advantage of a possible shortage of food commodities by increasing the selling price is plain, criminal, defenseless profiteering which cannot be tolerated by a people already disadvantaged by a crippled transportation system.

We are informed that one brand of hams which sold on the day the strike was declared for thirty-five cents a pound have been advanced to forty three cents per pound and that the forty three cent variety being sold today came out of the same shipment as the thirty five cent variety of a week ago.

We are also informed that the wholesale price of sugar to Clearfield merchants was increased two cents a pound —sugar which came out of the same shipment as the eighteen cent brand is being sold today for twenty cents by the wholesalers.

The strike may result in a temporary shortage of commodities but the shortage should not add one cent to the price. If one cent is added it is profiteering. Raising the price will not increase the supply or deter hoarders from hoarding. Raising the price simply fills the pockets of the profiteer and empties the pockets of the consumer. This condition will not tend to alleviate the unfortunate conditions growing out of the strike.

The public will be the court of last resort and the public is a stern judge. Dealers in all kinds of commodities will be closely watched by the consumer in this crisis.

BOILER EXPLOSION AT BRICK WORKS INJURES ONE MAN

An exploding boiler completely wrecked the boiler house at the Harbison-Walker Brick Works No. 3 in the lower end of the Fourth ward about ten minutes of 12 o'clock last night. By a fortunate chain of circumstances but one man was injured and he luckily escaped with minor bruises and shock from his close call.

The boiler was one of a battery of twin 160-horse power boilers used in the supplying of power to the brick making machinery of the yard.

As is the custom at the Harbison-Walker works the yard shut down at 11:30 last evening for dinner for the night crew and the men had left their work and retired to their homes and rest rooms and were eating their meal when the accident occurred.

Charles Wiltsey, the night fireman, was engaged in blowing out the flues of the boilers. He was working on No. 1 boiler which was located at the west end of the big yard and was on a ladder in front of the boiler just opposite the door into the boiler room, and this latter fact undoubtedly saved his life. Wiltsey had blown one flue and had just inserted the nozzle of his hose into a second flue when with a deafening roar boiler No. 2, a few feet distant, exploded. The force of the explosion picked the man up like a chip and he was catapulted out through the door by the expansion of the air and thus escaped the rain of debris when it fell back to the floor of the boiler room.

The boiler room was partitioned off from the yard proper by a brick wall along the rear of the boilers. Both boilers were hurled from their foundations and thrown criss cross about the room while the brick wall in the rear was completely demolished, the brick being hurled thruout the yard tearing up the green brick on the floor where the men had been at work a few minutes before and causing general and widespread havoc throughout the plant.

Fireman Wiltsey was cut and bruised and was quickly picked up and taken to the Clearfield hospital, where an examination disclosed that he was but slightly injured and he was able to be about town this morning.

While the actual cause of the explosion is unknown it is thought the water was allowed to get low and when cold water was let on the red hot tubes the smash resulted. The boiler was made by the Phoenix people and had been inspected by a state inspector just about two weeks ago. Fireman Wiltsey and the Foreman of the plant claim they tested the boilers some ten minutes before the blow-up and found the gauge showed plenty of water.

While a pretty bad wreck, the accident occurred at a most fortunate time as had the let go took place while the yard was running a score or more workmen would undoubtedly have been killed.

SOME SERVICE MEN WOULD NOT RECEIVE DOLLAR DAY BONUS

WASHINGTON, April 14.—A cash bonus of $1 for each day's service would be given to approximately 3,000,000 of the 4,800,000 men in the army, navy and marine corps during the war in a plan that has been approved by the bonus sub-committee, it was made known yesterday.

The program which will be submitted to the full committee for approval during this week, calls for an expenditure of slightly less than $1,000,000,000, which is to be raised by a tax of ½ of 1 per cent. on all sales.

It is considered very likely that this plan will be the one which will be submitted to the House in the near future.

Bonuses Are Limited.

With the purpose of limiting the bonus to those who endured heavy financial sacrifices during the war, the sub-committee has eliminated several classes of service men from the groups entitled to benefits, the total number eliminated being estimated at 1,800,000.

Among these classes are:

Those who served less than 60 days because these men already have received the original $60 bonus.

Men who were assigned to industrial plants, such as shipbuilding, and received extra compensation therefor.

All officers.

Men in the regular army before the declaration of war.

Men, who while serving in the army, received compensation from their employers or business interests.

No man would be given the bonus until he applied for it, and this, it is believed, would reduce the total expenditure, as many service men who have wealth are not expected to ask the extra compensation. The application is to contain an affidavit that the soldier is not in any of the above classes.

The plan calls for payment of the bonus in four equal installments and the sales taxes are to be collected in the corresponding periods.

The average service, the sub-committee has been informed, is 10 months, making the average bonus about $300. Men who were promoted to be commissioned officers will be paid only for the time they served as enlisted men. he committee is now waiting for estimates from the treasury department as to exactly how much can be raised by the tax on sales, but preliminary estimates place the amount at about $1,500,000,000. The levying of this tax also would be in the nature of an experiment as there is sentiment in Congress for having it replace some of the other taxes later. For the present, however, it must be in addition to all other taxes.

R. I. Bashford has resigned his position as assistant to Dr. Hennig, vice president and general manager of the Nickel-Alloys Co. Mr. Bashford has accepted a postion as assistant to the general superintendent of the Grasselli Explosive Co., with headquarters at Cleveland.

WILKINS—CURRY

Louis H. Wikins, of Watsontown, Pa, and Mrs. Emma J. Curry, of Cearfield, were married Tuesday afternoon at the West Side Methodist arsonage by Rev. C. C. Snavely. The groom is a valued employe of the Whitmer-Steele Lumber company and has made a host of friends since coming to Clearfield. His bride has been a well known resident of the West Side for a number of years.

The Progress joins their many friends in heartiest congratulations.

WANTS $1500 FOR SLANDER

Suit was entered in the Prothonotary's office yesterday morning, by Chase & Chase, on behalf of Mrs. Catherine Mendalia, who seeks to recover from Mrs. Rosie Pontillo, alias Rosaria Pontillo, the sum of $1500, which Mrs. Mendalia feels is due her for injury to her good name by reason of certain false, malicious and scandalous statements made about her by Mrs. Pontillo.

DANIEL GRIFFIN'S FUNERAL

The remains of the late Daniel Griffin, who died in Galveston, Texas, arrived in Clearfield this morning and were taken to the home of his sister, Mrs. T. T. Beahan, on Ogden avenue. The funeral will be held from St. Francis church tomorrow morning at 9 o'clock. After a reqiem high mass, interment will be made in Calvary cemetery.

LOCATED IN THE LAND OF BRIGHAM YOUNG

The many local friends of James D. Schaeffer, formerly with the Pennsylvania Railroad at this place, will be pleased to know that now that the railroads of the country are back in the hands of their private owners Jim has been re-established as Traveling Passenger Agent of the Chicago, Milwaukee and St. Paul Railway with headquarters in the Clift building at Salt Lake City, Utah.

If the Fates make it possible for us to get to that San Francisco Democratic convention we are going to Salt Lake on Jim's road and stop off long enough to have him introdue us to the seven or eight extra wives he has no doubt accumulated since locating in Mormon land.

STOCKS ADVANCE

NEW YORK CITY, April 14.—There were substantial increases in prices on the opening of the market today. Mexican Petroleum opened at 206½ up 1½, Baldwin at 140⅞ up 1⅛, United States Steel at 105½ up ⅛, Republic Steel at 112½ up 1, Bethlehem B. at 97¾ up ¼, Crucible at 259 up 2. Midvale sold at 48¼.

FORMER WELL KNOWN RESIDENT MARRIED

Mrs. Emma J. Bouton, a former well known resident of Clearfield, who spent the past winter at Chautauqua, New York, was married there recently to Dr. H. A. Ellis, of Franklin, Pa.

A. B. Litz, the DuBois printer, was a county seat visitor today.

NEW Y. M. C. A. PRESIDENT

R. I. Fulton has been elected President of the local Y. M. C. A., to succeed ex-Judge Allison O. Smith, who resigned that position after several years most satisfactory service on account of ill health.

Mr. Fulton is peculiarly well fitted for the position to which he has been chosen. An indefatigable worker, an organizer and executive of pronounced ability he is eminently the right man for the place. At the forefront of every movement for the moral betterment and uplift of the community, as President of the Y. M. C. A., Mr. Fulton will have special and added opportunity to employ his constructive talents for the moral welfare of the town. His was a particularly wise selection on the part of the Board of Directors.

FOREST FIRE LOSS IN PENNSYLVANIA ENTIRELY TOO BIG

HARRISBURG, Pa., April 14.—The 36 forest fires that occurred in Clearfield county last year, were due to the following causes:

Railroads, 6; brush burning, 3; incendiary, 1; campers, 3; hunters and fishermen, 6; lumbering, 1; lightning, 0 and miscellaneous, 19. During the last five years, forest fires of more than 1,000 acres in extent, burned over 43,738 acres in that county. The figures were compiled by the Pennsylvania Department of Forestry.

Gifford Pinchot, the state's new chief forester, today issued the following statement on the seriousness of the forest fire situation in Pennsylvania:

"Forest fires are important almost beyond calculation. They cost us more than $10 each every year for every man, woman and child in Pennsylvania—not in the trees that are burned down, but in the lumber, fence posts, poles, ties and other forest products they prevent from being produced.

"The great damage from forest fires is what they keep our woodlands from producing for us. Help us to hold them down this year."

FORMER CLEARFIELDER MEETS DEATH IN TEXAS

Daniel A. Griffin, formerly of Clearfield, was killed at Galveston, Texas, on Friday, April 9th, by coming in contact with a "live wire" while employed as a lineman. The following reference to the sad happening was taken from the Galveston News of that date:

Daniel A. Griffin, a lineman for the Brush Electric Company, was killed at 2:50 o'clock yesterday afternoon, on Thirty-fifth street, between avenues P½ and Q, when he came in contact with a live wire, while working on a telegraph pole. His life belt held him in position until his companions took him down. He was rushed to the John Sealy Hospital, but was beyond medical aid when the hospital was reached.

The deceased was born at Houtzdale December 11, 1889, and resided in Clearfield for several years. He was an industrious, hard-working man and possessed a large circle of friends in this section.

He is survived by his father, Daniel Griffin, of Clearfield, four sisters, Mrs. T. T. Beahan, of Clearfield; Anna and Nellie, of Rochester, N. Y.; Kathryn, of the Pennsylvania Hospital, Philadelphia, and three brothers, John, of Viaduct, Pa.; Thomas and Dennis, of Rochester, N. Y.

The remains will be brought to the home of Mrs. T. T. Beahan, and the funeral will be held from St. Francis Catholic church, but on account of the present railroad situation, the date of the funeral will be announced later.

Mrs. Charles Halford is spending a few days with her son in Indiana.

KILLS ANOTHER WHO BOASTED HE COULD WIN LOVE OF WIFE

HANFORD, Calif., April 14—When William J. Forbes [illegible] late this month for the murder of Clarence Eaton a [illegible] a man driven to desperation [illegible] threats of another [illegible] wife's love.

Forbes says he killed Eaton because the latter refused to stop boasting of his ability and intention of alienating Mrs. Forbes' affection.

After shooting Eaton dead, Forbes rode 1,100 miles in an automobile in four days, traveling day and night without sleep, to give himself up.

Forbes once was postmaster at Death, Nev., and later became deputy county assessor there.

Eaton returned from the war and was welcomed at the Forbes home because of his friendship with members of Mrs. Forbes' family. Eaton, Forbes asserted, reciprocated by openly attempting to win Mrs. Forbes' love.

Becoming interested in some mining property near Arrowhead, about eighty miles from Tonopah, Forbes saw an opportunity to get away from Eaton, he said, and moved with his family Mrs. Forbes and their two boys —to the mine.

Eaton then began writing letters to Mrs. Forbes, her husband deposed, begging her to join him in California.

"The condition became unbearable," Forbes said, "and I drove to California in my car to see Eaton and come to a definite understanding with him.

"I met him in the street and went with him to his room to talk the matter over. The result was that I agreed to take Eaton to my home and leave it to Mrs. Forbes to choose between us."

The two left town that evening and started for Nevada. They had traveled about eighty miles when the lights on the car went out. Forbes stepped out to make repairs, he said, when Eaton suddenly exclaimed: "I'll not go any farther. I'm going to leave you at the next town and go back. I can take your wife at any time, and the two kids, too"

Forbes whipped out a revolver and fired one shot. It struck Eaton in the head, killing him instantly.

Realizing that he was in a strange country among strangers, and that he had letters in his pockets, written by Eaton, which would be taken from him, Forbes decided to go to Arrowhead and get his family—they lived alone in the hills—and then surrender.

This he did, later wiring California authorities he was on his way. A few days later he appeared. Meanwhile he had found a new home for his family.

Forbes talks frankly of the killing. "There was no other way out," he says.

H. P. Nicholson formerly general superintendent of the Nickel-Alloys Company has accepted a position with the Grasselli Powder Company at Cleveland, Ohio.

Will somebody please derail the switchmen's strike.

Our readers must pardon the style of The Progress these days when newsprint is hard to get and harder to pay for than to get.

That good old reliable "warmer" which fishermen have depended upon since time immemorial is no longer available to those who have been subject to chills on their spring fishing trips. There is some consolation to the timid sportsman in the knowledge that the weather is too cold for snakes.

It appears that beginning today we are to have once more a government that functions, at least for the first time in six months it is to have an acting head. We rejoice that the health of the president again permits him to take his place at the head of the cabinet table and that with him in his place there will be no more suspicion that another, not our president, is directing the destiny of the nation.

Illinois, as was to be expected, went for Governor Lowden. Illinois is his home state. A little spice was injected into the poitical situation by the wonderful testimonial to Hiram Johnson when over 40,000 took the trouble to write his name on the ballot. Weed did fine in Cook County in which Chicago is located. Offsetting developments of the last two or three weeks Hoover did not have a look in. The Illinois Democrats had no candidates to vote for.

We learn with regret that railroad workers in this community are giving ear to the appeals of the so-called "reps" paied that they join the striking hosts throughout the nation. While the strike is gaining in momentum throughout the east it appears that the movement has lost its momentum in the west. There are many reasons why railroad men should not align themselves with the strike movement as at present set. The strike is illegal as far as union practices are concerned. It does not have the approval of the American Federation of Labor or of the big brotherhoods. It is led, according to Attorney General Palmer, by members of the Communists Party of Chicago, whose sole object is to create a reign of terror throughout the nation. It is contrary to the letter and spirit of the railroad law which, although slow in meeting the demands of the striking men, will eventually function. There are so few switchmen in this locality that their addition to the ranks of strikers will not help to attain any benefits but will bring a great deal of disadvantage to this community thru the partial crippling of industry here. The strike, as a whole, is not approved by union labor or by public sentiment. In fact the public have a very vital interest in it. The losses to the roads now thru reduction of revenues is running from three to four millions of dollars a day. It is to be hoped that good judgment will prevail and that the disturbance will not come to our very doors.

THAT'S WHERE THE TROUBLE COMES IN

The article in The Progress last evening charging Clearfield county's marriageabe young ladies with failure to embrace the leap year privilege ,to say nothing of the man necessary for the opportunity, brought several replies of one kind and another over the telephone this morning. A number of women seemed to think the entire "weaker sex" needed defense and they flew to the rescue with tongues wagging at both ends.

We have been married entirely too long to even think of replying to a woman when she gets het up on any subject and commences on us with that "deadly weapon" most generously supplied the female of the species, so we listened in silence to the end of each discourse regardless of "Oh, Lord! how long." When each defender of the fair sex had "run down," so to speak, we replied in our most abject tone that no offense was intended and we agreed with the speaker in all that she had to say.

We didn't particularly mind the first four or five but after that they got on our nerves somewhat and we were forced to make reply in the last case. After listening to a tirade against "poor man" of at least five minutes duration, without period or stop of any kind, we finally got our chance, when the lady closed with "A married man is flirting with me and I'm going to make a date with him some of these days and tell him what I think of him." When we sweetly advised her not to do it, that it was just that kind of thing which filled the divorce courts, she went down for the count and before she came up for air we had hung up the receiver.

Keeping Promises.

It is high praise when one can say of a person that he is a man of his word. One knows what to expect of such a man. He is a valuable citizen, a good neighbor, a true friend, one with whom it is satisfying to deal. He does not make promises without knowing he will keep them. Having made one, he will, if need be, fulfill it at an inconvenience or a personal loss.

We all know those who, on the contrary, promise anything readily. "Oh, yes, I will be there," they say, and fail to appear at the appointed time or place. "Yes, I will give so much," they declare, or "I will do such a piece of work," but fail to give the matter another thought.

Such people have convenient forgetters. When asked to fulfill their promises, they have forgotten them entirely, or "other matters have intervened," or "now it is too late." A few experiences with this kind of promiser make one value above rubies and diamonds the man who keeps his word.

Why Horse Chestnut?

It is said that the name horse chestnut was derived from the fact that when the leaves of the tree fall there is a scar left on the twig in the shape of a horseshoe, that bears marks resembling the nails of a shoe.

The Cold That Hangs On

This is No. 5 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's VapoRub may be of value in this condition.

A cold is simply an inflammation of some part of the air passages—throat, larynx or bronchial tubes—just like a sore is an inflammation of the skin. A long continued cold means constant inflammation and this constant inflammation frequently weakens the air passages so that they become an easy point of attack for invading germs of more serious diseases. A "cold that hangs on," therefore, is simply nature's "red flag" indicating that there is "trouble below," and this warning should never be neglected.

Nightly applications of Vick's VapoRub will aid nature to clear up that inflammation. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to The Vick Chemical Company, 235 Broad Street, Greensboro, N. C.

Saving By A Plan

Haphazard saving does not accomplish anything. The **man who saves** when he thinks of it, or when he has some **extra money** in his pocket will save very little.

The only way to save it to do it by a plan. Determine what proportion of your income you can save. Then stick to the plan. Every day put in the bank the amount you have decided to save. In a short time it will be the natural thing to set aside first your savings account's share each payday. When it becomes a habit you are on the way to success.

Start now to develop the Saving Habit. Let this bank help you.

Her Grandma Used Sage Tea To Darken Her Hair.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The Rescue fire boys are asking borough council to buy some new gum coats, of which they are greatly in need At every fire the men ruin more or less of their clothing simply from the fact of a lack of suitable covering to protect them from water, smoke and dirt The Rescuers ask no pay for their work when called upon to perform it, and at the present price one has to pay for clothing now-a-days, they are asking only a small compensation. Buy the firemen new gum coats, so say we all.

The Progress man made a visit to the site upon which the new blouse factory is going to be built. The foundations are all excavated and a small portion of the concrete bottom for the walls put down. Several car loads of white brick have been unloaded on the ground and piled up in close proximity and can be rapidly handled when the time arrives for their use. A deep ditch has also been excavated to the creek which will answer for both drainage and water The building will be situated close to the junction of the P. R. R. and B., R & P. tracks so that the raw materia and the finished product can be handled at little cost and speed.

Last Wednesday evening, April 7th, Illini tribe No. 362, Improved Order Red Men, held an important and interesting session. Among other items of business transacted was the raising of chiefs for the ensuing term, the work being done by H. P. Fulkner. D S., of Philipsburg, assisted by local members of the tribe. Sachem, Harvey M. Smith; Sr. Sagamore, C. Bert Peters; Jr. Sagamore, William Milliron; prophet, Wm. Holden; K of C., J. A. Dale; C of W., Peter O'Laughlin; K. of W., Joseph P. Fullerton; 1st Warrior, Bruce Robison; 2nd Warrior, Ed. Balute; 3d Warrior, Ed. Tenor; 4th Warrior, J. H. Heitzenrather; 1st brave, F. D. Barger; 2nd brave, Dorsey Black; Guard of the Forest, John Hudson; Guard of the Wigwam, Charles Brown. After the new officers had taken their respective seats, addresses were made by some of the warriors of the tribe, after which a general smoker was indulged in. Illini Tribe is fast growing into a large membership and in wealth stands second to no other secret organization in Curwensville Their literature is open and free to any and all who desire to acquaint themselves with the order.

Born to Mr. and Mrs Charles Middleton at their home Monday, a daughter.

Curwensville physicians at a recent conference agreed to raise and put into effect a new schedule of visiting rates On and after April 15th their charges will be as follows: Office calls, $1.00; residential visits, daytime, $2.00, night $2.50 Out of town calls the charges will be made in accordance with the number of miles traveled.

The members of the P. H. C held a dime social at the residence of Mrs Alice Elder on South Side, last evening.

Clyde Bennett was quite seriously injured yesterday forenoon while working on a saw mill near town While no bones were broken his body was pretty badly bruised.

Wm Twigg, Sr, is having a new shingle roof put on his Bloomington avenue home.

Headache, Earache, Toothache, Neuralgia, Lumbago, Neuritis, and for Pain in general. Proper and safe directions are in each unbroken "Bayer" package.

Handy tin boxes of 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages Aspirin is the trade mark of Bayer Manufacture Monoaceticacidester of Salicylicacid.

USE EYES WHEN BUYING ASPIRIN

Take tablets without fear, if marked with the safety "Bayer Cross."

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink taken day after day leaves in the alimentary canal indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomainelike poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before breakfast each morning drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash out of the bowels the previous day's poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practising internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

TROUT FISHING OPENS TOMORROW

The 1920 trout-fishing seasbn opens tomorrow. Despite the exceptionally cold April weather, a large number of Clearfield fishermen have their plans made for whipping their favorite stream on opening day.

STUTZ STOCK OFF MARKET

NEW YORK CITY, April 14.—The Stutz Motor Company withdrew its stock from the New York Stock Exchange today.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

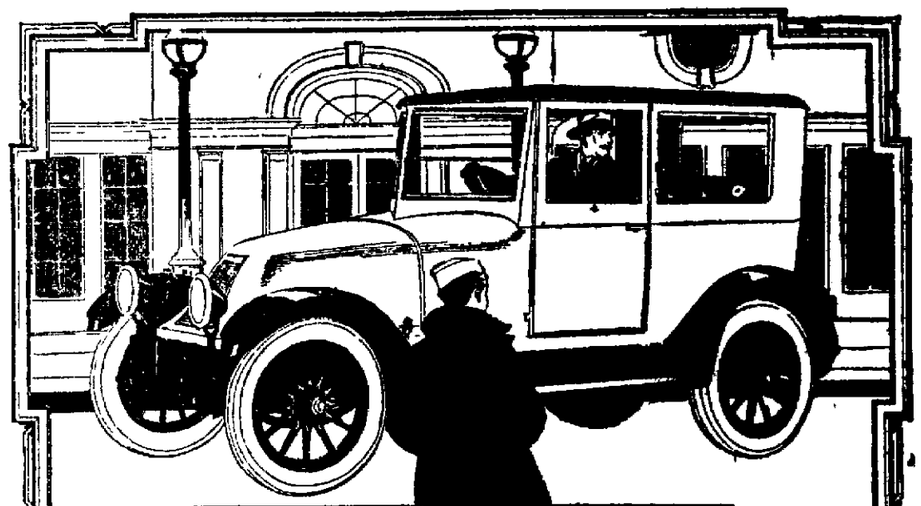
Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size $2.50.

MUSTEROLE



THE FRANKLIN SEDAN

NO fine car is so well fitted for unrestricted year'round use as a Franklin.

Direct air-cooled, and having no water to boil or freeze, it is free from all temperature troubles, and can be used with as little restriction, annoyance and extra care in winter as in summer.

Light and flexible, it rides comfortably and handles easily and safely under all conditions.

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

FOREST TELEPHONE SERVICE BETTERED

HARRISBURG, Pa., April 14—Four miles of telephone line were completed last week on the Karthaus State Forest, according to a report received from W H. Horning, the state forester at Keewaydin, Clearfield county, by the Pennsylvania Department of Forestry. Assisted by Ranger M A. Barr and two other men, Forester Horning is pushing the construction of the telephone line to early completion in order to provide improved protection against forest fires this spring.

FARM BUREAU BULLETIN

The condition of the corn this year seems to be equally as poor in germination as it was two years ago. This condition was brought about by the unusually high moisture content of the corn last fall, followed by the freezing weather before the corn was properly dried out.

A germination test of each of 317 exhibits from 39 different counties at the state show held in Harrisburg last January, showed the folllowing results.

Percent Germination	
100	
91—96	
71—90	
Below —70	
No signs of life	
Number of exhibits	
115	or about 1-3
62	or about 1-5
94	or about 3-10
46	
4	

It is safe to assume that these exhibits represented corn above the average of the state and yet if such were the results what may be expected from the crib-sun corn so much of which is still used in Clearfield county for seed, untested.

If you recall the absolute failure of the men who did not test their seed corn in the Spring of 1918, you will certainly want to test this year. Seed corn that has been tested and found good is going to be scarce and hard to get. If you have not already tested your seed or located some that is sure to grow, attesd to it at once as the delay may mean the loss of half a crop of corn at a time when the feed will be the chief factor in your livestock program.

If you have some seed for sale, kindly let the County Farm Agent know of it or if you desire to obtain some, drop a line and he will be glad to assist you in obtaining good seed from a reliable source.

Sincerely yours,
W. C. STERRETT,
County Farm Agent

CLEARFIELD COUNTY POMONA

Pomona Grange No. 33 met in the I. O. O. F. commodious hall April 1 and held three lively sessions. Owing to the bad condition of the roads, many patrons could not attend but still we had a large attendance.

Reports from 20 of the 30 subordinate granges in the county nearly all showed new activity and are adding new members to their rosters.

A very able program consisting of topics, recitations and music arranged by our Worthy Lecturer F. Berton Lee, was rendered during the sessions, whtich were lively instructive and entertaining.

Dinner and supper was served in the hall by the good sisters of the order which was enjoyed by all present.

The next Pomona will meet with Frenchville Grange August 26, 1920.

The following resolutions were passed unanimously.

1. We hereby tender a vote of thanks to the Independent Order of Odd Fellows, for their kindness in granting Pomona Grange the use of their large and commodious hall in which to hold our various sessions.

2. Resolved that we highly appreciate the stand taken by District Attorney John C. Arnold in regard to the prohibiting of all gambling devices from the county and from the various fairs to be held this coming fall in this county and for his determination to have all persons violating said gambling laws, be prosecuted in accordance therewith.

C. A. WOODS

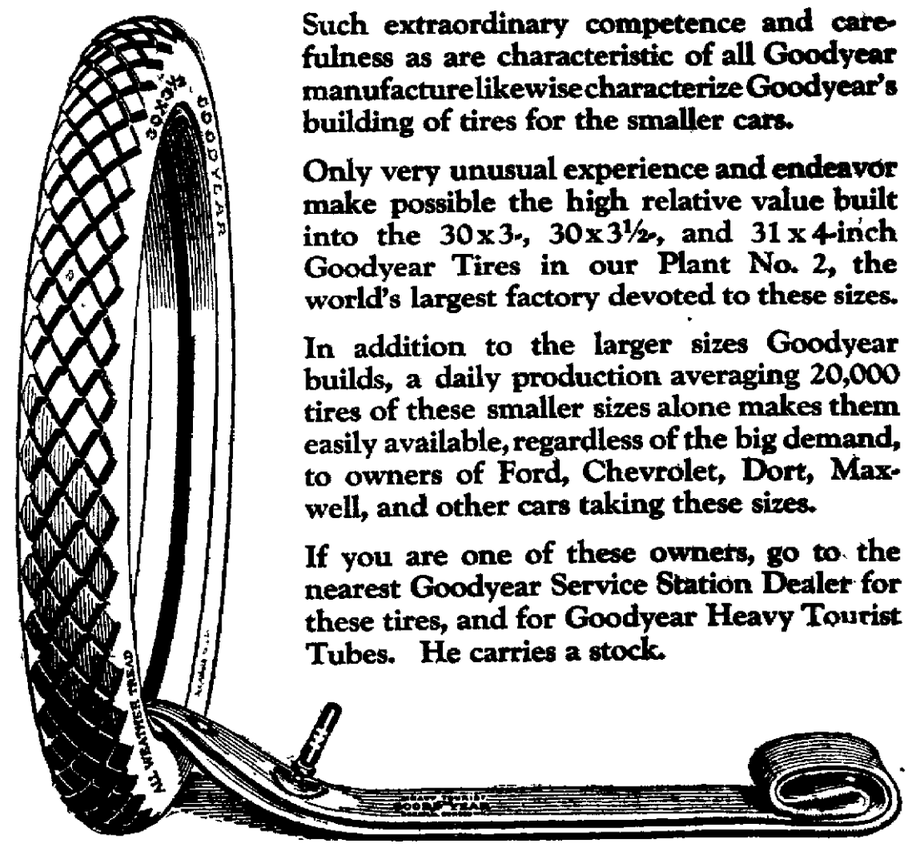
Merit That Makes Mileage —In Tires for the Smaller Cars



Such extraordinary competence and carefulness as are characteristic of all Goodyear manufacture likewise characterize Goodyear's building of tires for the smaller cars.

Only very unusual experience and endeavor make possible the high relative value built into the 30x3-, 30x3½-, and 31x4-inch Goodyear Tires in our Plant No. 2, the world's largest factory devoted to these sizes.

In addition to the larger sizes Goodyear builds, a daily production averaging 20,000 tires of these smaller sizes alone makes them easily available, regardless of the big demand, to owners of Ford, Chevrolet, Dort, Maxwell, and other cars taking these sizes.

If you are one of these owners, go to the nearest Goodyear Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He carries a stock.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... $23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... $21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size *in waterproof bag*..... $4.50

GOODYEAR

John McKee, he comes to see My sister Nell quite frequently. And then these two begin to brew Some Golden Sun—immediately.

Golden Sun Coffee

PRIDE in your own town alone should prompt you to trade with your local grocers. But there are other reasons for buying coffee at home. To be good, coffee must be fresh. Golden Sun is sold fresh by grocers.

STOP ITCHING-SKIN

Zemo, the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching torture and that cleanses and soothes the skin.

Ask any druggist for a 35c or $1 bottle of Zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear.

Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

AMUSEMENTS

THE CHIEF CAUSE OF DIVORCE

New Photoplay Shows it to be a Neglected, Longing Spouse

A noted cynic once said of marriage: "The first forty years are the hardest!"

That the married life of millions of people is unhappy is proved by the divorce records.

What are the reasons?

One of the reasons is bared in "Blind Husbands," Universal's sensational photodrama of the Tyrolean Alps.

The film story, which is to be shown on Friday and Saturday at the Driggs theatre, was produced under the direction of Eric Stroheim, who also plays the leading role.

In brief, the story shows how a socalled dutiful husband ground the embers of his wife's love in the dust of indfferencei and made her heart vulnerable to the advances of a love-buzzard.

The story of "Blind Husbands" was written by Stroheim from an incident that occurred under his observation while he was on a vacation tour in the Alps.

Supporting him in the cast are several screen celebrities, among whom are Francelia Billington, Sam DeGrasse, H. Gibson-Gowland, Valerie Germonprez and Jack Perrin.

GREAT MUSICAL COMEDY

Kilroy & Britton will offer "OH DADDY," the latest of their many musical successes, at the Driggs Theatre, Thursday, April 15, featuring Norman Hanley and Ella Warner Davis. "OH DADDY" is said to be a novel, joyful, tuneful and a wholly different musical play. One of the chief charms of "OH DADDY" is the ever present element of continual surprise that pervades this adroit combine of whimsical foolery, haunting melody and feminine loveliness. There are a score of song hits and tinkling, tatalizing dance numbers that quicken the pulse and set young feet to tripping.

GIRLS' "GYM" EXHIBITION

On Thursday evening, April 15, at 7:30, the Junior, Intermediate and Senior Girls' gymnasium classes will give a free entertainment and gymnasium exhibition, for their mothers and fathers to see what they have learned during the winter course of Y. M. C. A. gymnasium classes.

It will consist of physical drills, marching, racing, Indian club swinging and dumbbell drills.

All of the two hundred girls who attended the classes either this year or last, are invited to take part in the exercises.

All school teachers should see these physical drills and games.

JORDAN'S

CUTTING FINE TRACT OF TIMBER

A. C. Lasberry the Bigler lumberman, was a Clearfield visitor yesterday. The firm of A. C. Lansberry & Son are now engaged in operating the tract of virgin timber at Lumber City which they recently purchased from Watts Brothers. In conversation with Mr. Lansberry he informed us that this tract is one of the very best he ever cut in all of his 56 years in the lumber woods of Clearfield county. There had never been an axe in this tract previous to ths operation and as an evidence of the size of the timber one white oak tree cut by Joseph Lines of Lumber City, one day last week, measured four feet across the stump, the first 16 foot log being 36 inches at the top. The tree scaled 2330 feet. Several pine trees cut on this tract scaled over 3000 feet each. The big oak mentioned was cut near the Bo-Narr picnic grounds.

First Examine Good Qualities.

We are firm believers in the maxim that for all right judgment for any man or thing it is useful, nay essential, to see his good qualities before pronouncing judgment on his bad.—Carlyle.

Gossip for Tonight's Tea Table

Don't worry about perfect results. Use "Diamond Dyes" guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods,—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings.

The Direction Book with each package tells so plainly how to diamond dye over any color that you can not make a mistake.

To match any material, have druggist show you "Diamond Dye" Color Card.

Mrs. C. D. Lansberry entertined her Sunday schoo class at her home on Weaver street last evening. Delicious refreshments were served. The girls departed reporting a lovely time.

GOOD ADVICE

A Clearfield Citizen Gives Information Of Priceless Value.

When you suffer from backache,
Headaches, dizziness, nervousness,
Feel weak, languid, depressed,
Have annoying urinary disorders;
Do you know what to do?
Some Clearfield people do.
Read the statement that follows.
It's from a Clearfield citizen.
Testimony that can be investigated

Mrs. G. M. Lansberry, 111 Merrill street, says: "Some time ago I was troubled with bad headaches. There was a dull continual ache in the back of my neck and I was told it came from my kidneys, which were disordered. I was advised to try Doan's Kidney Pills and on taking a few, I found the pain was greatly lessened I am glad to recommend Doan's Kidney Pills, for I think they are a wonderful remedy."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Lansberry had. Foster-Millburn Co., Mfgrs., Buffalo, N. Y.

Run Down?

Kidney and bladder troubles are not limited to men. Housework, or work in office or factory, caused women to suffer from weak, overworked or diseased kidneys. The symptoms are—puffiness under the eyes, sallow skin, constant tired feeling, lack of ambition, nervous condition, backache, rheumatic pains, sore muscles, stiff joints.

Foley Kidney Pills

get right at the cause of suffering and misery, regulate the kidneys and bladder and restore the diseased organs to sound and healthy condition.

Mrs. Wm. Fischer, 2009 Woodbourne Ave., Louisville, Ky., writes: "I am just getting along fine. I am taking Foley Kidney Pills every other night. You should have seen me before I started. I was yellow as gold, now my eyes and skin are all cleared up. My kidneys do not bother me at night any more. If it will help some other poor soul who is suffering you may use my name wherever your medicine is advertised."

Sold everywhere.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. No griping results from these pleasant little tablets. They cause the liver and bowels to act normally. They never force them to unnatural action. Dr. Edwards' Olive Tablets are a soothing, healing, vegetable compound mixed with olive oil.

If you have a bad taste, bad breath, feel dull, tired, are constipated or bilious, you'll find quick and sure results from Dr. Edwards' little Olive Tablets at bedtime. 10c and 25c a box.

Cooking is a Fine Art

Roast beef, all crispy brown outside, with the rich, savory juices seeping through and through. Deep huckleberry pie with the under crust light and flaky. Results are sure with a Beechwood Range. The extra large fire-box insures just the right even temperature to crown your efforts with success.

Beechwood

Beechwood Perfect System of Heating will keep you warm all winter on less coal.

Be sure and see the Beechwood enameled models. Three colors—blue, black, and brown. No blacking necessary. An oiled cloth cleans the polished top, a damp cloth, the enamel. Come in, and examine them for yourself.

Does It Catch You in the Back?

It may be that you are mysteriously attacked by pain in back (lumbago), or limbs, "neuralgic" pains—shooting anywhere, or swollen and painful feet. Pain and backache of any kind are often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys. Perhaps you have become nervous, despondent, sick, feverish, irritable, have headache or spots appearing before the eyes, bags under the lids and lack ambition to do things. The latest and most effective means of overcoming such trouble is, take a single Anuric (anti-uric-acid) Tablet before each meal.

Obtain Anuric at any drug store, or send ten cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package. Listen to this:

Montrose, Pa.—"When I commenced taking Dr. Pierce's Anuric I could hardly go up and down stairs. I had to put one foot up and then drag the other up, I had such a lame hip, but now I can run up and down as well as I ever did in my life. I also suffered with indigestion for twenty-five or thirty years—was almost afraid to eat, but now I can eat almost anything and have gained seven pounds. I took Dr. Pierce's Golden Medical Discovery, 'Anuric Tablets,' and one vial of 'Pleasant Pellets.'"—MRS. G. L. SHELP, Route 2, Box 6

Flegal's Store News Men's Serge Suits
